March 31, 2016

Dear Kathryn,

On February 27th, I learned a great deal about a little known group of men who served our country. Your presentation, "Discovering the Ritchie Boys of WWII," was informative and interesting. How fascinating it was to learn about your research journey both through the interviews, travels to archives and people you've met along the way.

I especially enjoyed some of the more personal stories you shared about your grandfather and the Ritchie boys you interviewed. I also appreciated your willingness to answer questions and chat further with audience members who wanted to speak with you after your presentation.

What a very positive experience this was for our community. I am so glad we hosted your presentation. I would certainly recommend your program and your book to any community interested in supplementing their knowledge of American History.

Sincerely,

Eileen T. Hauser  
Programming Librarian
