Tagalong Caitlin

By Katie Lang-Slattery

An early chapter book for ages 5 to 9

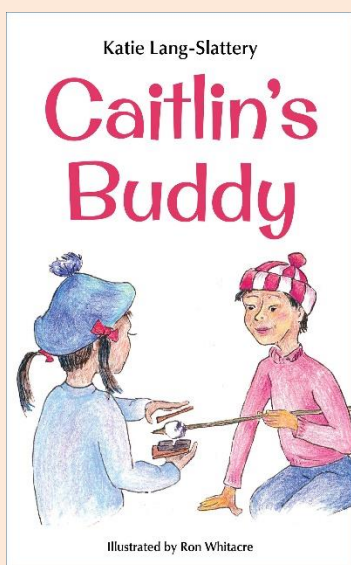

Caitlin is a little girl with big ideas and a plan to help her reach her goal. She wants to prove she is strong enough to go with the older campers on a three day backpacking adventure. Will Caitlin be allowed to go? And if so, will she be able to do the full three days? **Tagalong Caitlin** is a fun read-aloud book for younger children and is easily read by children ages 7 and up.

“Tagalong Caitlin is about growing up; about setting a goal and working to get there, and about sticking to it when the going gets tough. Young readers will love the outdoor setting and enjoy Caitlin’s “can-do” attitude as she tries to become just like the other campers. “

Marion Coste, award winning author of seven children’s books.

“A darling story – inspiring and fun! My husband read it to my first grader in a single bedtime because they couldn’t put it down. . . As a strong reader, my daughter could have read this herself (more slowly), but my outdoorsy husband genuinely enjoyed reading it with her.”

Caitlin’s Buddy

By Katie Lang-Slattery

An early chapter book for ages 6 to 9

First-time campers can be a lot of trouble! Caitlin agrees to be the buddy of a new camper who doesn’t know how to do anything. Misha trips over tent stakes, cries herself to sleep, and hides food in her daypack. But she has lots of good ideas. Then, after a campfire, Misha runs off into the dark night and Caitlin follows to stop her. Will Caitlin be able to forgive Misha for getting them lost? Will the two girls only be temporary tentmates or friends forever?

“Caitlin’s Buddy is a story about friendship, teamwork, and experiencing new things. The story has action and adventure which will pull young readers into the story and make them want to go on a camping adventure. The author’s narration is vivid and detailed and makes the scenes and moments in the story tangible, real, and relatable. . . . The characters are lovable and adorable, and the author’s fluidity in expression gives the story good pace and movement.”
